"Glass Matrix, a premier supplier of effective, easy-to-use glass scratch removal and polishing systems.

We aspire to be the world leader in state-of-the-art glass scratch removal and polishing technology through R&D."

Dan Tay, Director, Product Development

Mission

We aim to provide our customers with high quality, innovative glass repair and restoration products.

Vision

Glass repair and restoration made simple.

Guiding Principle

We strive to be the worldwide market leader in the manufacturing of innovative glass repair and restoration products.

- ✓ Easy To Use - Products are easy to use. If you need help, it is just an email away.
- ✓ Quality Assurance – Products has gone through strict quality control so that you have your peace of mind.
- ✓ Complete Systems – All-in-one professional and automotive scratch polishing systems are field-tested and proven, to ensure that you have all right the tools to get the job done.

Professional Scratch Polishing Training Course

Our training course consists of theory and hands-on practice.

Trainees are required to actively participate in all repair processes. Our trainer will perform a complete repair from start to finish and trainees are then required to carry out the repair themselves under supervision and are technically assessed accordingly.

Get in touch with us to find out more.

Professional Scratch Polishing System - PREMIUM

Comes with everything you need to remove light to extremely deep glass scratches.

Jumbo Pack! Able to work on many scratched glass!

Available in 110V and 240V

Item No. PROPRE-110V, PROPRE-240V

Professional Scratch Polishing System - STANDARD

Comes with everything you need to remove light to extremely deep glass scratches.

Ideal for low budget, small project applications.

Available in 110V and 240V

Item No. PROSTA-110V, PROSTA-240V

Professional Scratch Removal Starter Kit

Essential items to remove light to extremely deep scratches.

Ideal for D.I.Y. applications.

Polishing machine not included.

Item No. PROSK-01

Automotive Scratch Polishing System

Removes scratches on automotive glass with no visible distortion.

Available in 110V and 240V

Item No. AUTOSYS-110V, AUTOSYS-240V

Automotive Scratch Removal Starter Kit

Essential items to remove light to medium scratches.

Ideal for D.I.Y. applications.

Polishing machine not included.

Item No. AUTOSK-01

Automotive Glass Maintenance Kit

Easy to use kit to remove hard water stains from your automotive glass.

Other applications: Building glass, shower screen glass and many more.

Item No. GMK-01

Professional Glass Cleaner Kit

Professional Glass Cleaner with Microfiber Cloth.

Suitable for use on all types of glass. Its unique formulation leaves no residue.

Item No. PGC-01

POLISHING COMPOUND AND PADS

Professional Polishing Compound

The polishing compound is a proprietary blend that is formulated to by Glass Matrix work with our professional glass scratch polishing system to remove the toughest scratch on the glass.

Available in 0.28kg and 1.4kg

Item No. PC280-01, PC1420-01

Polishing Compound - Automotive Glass

This special blend of polishing compound is designed to work with our Automotive Glass Maintenance Kit.

Item No. PCA270-01

POLISHING COMPOUND AND PADS

Polishing Pads

Works hand in hand with the polishing compound to remove light scratches and restores the shine on the glass after QuickCut sanding process.

Available in 2", 3" and 4" diameter

Item No. Refer to Item List, Page 12

Backer Pads

100% quality checked for balancing to ensure smooth and vibration free polishing.

Available in 2", 3", 4" and 5" diameter

Item No. Refer to Item List, Page 12

QuickCut Sanding

QuickCut sanding is an accelerated process to remove deep scratches. There are 6 steps in the QuickCut Series; Step 1 to Step 6. Final polishing using the Professional Polishing Compound is necessary to restore the shine on the glass.

3" Diameter QuickCut Series Pack

Comes as a pack: Step 1 to 6. All you need to remove **ISOLATED** deep scratches with ease. Each box contains 50 pcs of QuickCut Discs.

Item No. Refer to Item List, Page 12

5" QuickCut Series Pack

Comes as a pack: Step 1 to 6. All you need to remove **LARGE AREA** of deep scratches with ease. Each box contains 50 pcs of QuickCut Discs.

Item No. Refer to Item List, Page 12

Interface Pads

This foam pad is used to “cushion” the vibration/wobbling effect during the sanding process. Excessive vibration during sanding will cause unwanted distortion to the glass.

Available in 3” and 5” diameter

Item No. Refer to Item List, Page 12
